📍 Dindigul , Tamil Nadu

Profile Summary

- Full-Stack Developer with expertise in MERN stack, building scalable web applications with React.js frontends and Node.js/Express backends.
- Proficient in Java for backend systems, with strong problem-solving skills in Data Structures & Algorithms.

Relevant Coursework

- Data Structures and Algorithms
- UI Development with Figma
- MongoDB Schema Design and Data Modeling
- Building RESTful APIs

Personal Projects

Notes-Taking Web Application | React JS | Link-<https://notes-management-ashen.vercel.app>

- Built a React-based notes app with JWT authentication, allowing users to secure notes with PINs and customize themes. Deployed on Vercel with 30+ active users.

Hotel-Management-System | Java |

- Developed a Java-based system with OOP principles, handling room bookings, food orders, and check-in/out. Used file-based persistence.

Academic Project

AI Powered Domestic Services Web Application | MERN Stack |

- Led a MERN stack project integrating AI-based allocations for service providers (finds nearest-one). Implemented user auth, real-time bookings, and payment processing.
